## INSTRUCTIONS FOR PREPARATION OF

# Foreign Branch Report of Condition FFIEC 030 and FFIEC 030S

## General Instructions

### Who Must Report

Every insured bank and savings association with one or more branch offices in a foreign country is required to prepare a Foreign Branch Report of Condition (FFIEC 030) or an Abbreviated Foreign Branch Report of Condition (FFIEC 030S) for each foreign office (except for exempt offices) in accordance with the following instructions.

To the extent applicable, these instructions correspond to the Instructions to the Consolidated Report of Condition (FFIEC 031) and supporting schedules. In view of this, the respondent should refer to the FFIEC 031 instructions if further clarification is needed in preparing the FFIEC 030.

The terms “foreign branch” and “foreign country” are defined in Title 12, Part 211.2 (Federal Reserve Regulation K). The term “foreign branch” includes branches located in any territory, dependency or insular possession of the United States, the Commonwealth of Puerto Rico, or in any foreign country, with one exception. For purposes of this report, military banking facilities are not considered to be foreign branches and should not be reported individually or in consolidated figures.

Unless the context indicates otherwise, the term “bank” in these instructions refers to both banks and savings associations.

### Quarterly Reporting Requirement for Significant Branches—Detailed report (FFIEC 030)

A branch with *either* total assets of at least \$2 billion (Schedule RAL, item 11) *or* commitments to purchase

foreign currencies and U.S. dollar exchange (a purchase of U.S. dollar exchange is equivalent to a sale of foreign currency) of at least \$5 billion (Schedule RAL, item 20) as of the end of a calendar quarter, is considered a “significant branch” and is required to report quarterly on the FFIEC 030. Such branches must not be consolidated with any other branches in any quarter, including the December 31st report.

Quarterly reporting should commence on the quarter end in which the branch meets the significance threshold. A significant branch that diminishes in size and no longer meets the threshold ceases to be a significant branch and should stop reporting quarterly commencing on the quarter end in which the office drops below the threshold. The bank regulatory authorities may specifically require the report to be filed quarterly by foreign branches that the authorities deem to have significant risk exposures.

### Annual Filers—Detailed Report (FFIEC 030)

A foreign branch that does not meet either of the criteria to file quarterly, but has total assets in excess of \$250 million, must file the entire FFIEC 030 report on an annual basis as of December 31st of each year.

### Annual Filers—Abbreviated Report (FFIEC 030S)

A foreign branch that does not meet the criteria to file the detailed report, but has total assets of \$50 million or more (but less than or equal to \$250 million), must file the Abbreviated Foreign Branch Report of Condition (FFIEC 030S) on an annual basis, as of December 31st of each year.

---

# General Instructions

## Exempt Filers

A foreign branch with total assets of less than \$50 million is exempt from both the FFIEC 030 and FFIEC 030S filing requirements.

## Submission of the Reports

The Federal Reserve acts as the collecting and processing agent on behalf of the federal bank supervisory agencies.

The reports must be submitted on the report forms provided by the Federal Reserve System. No caption on the report forms shall be changed in any way. No item is to be left blank. An entry must be made for each item; i.e., an amount or a zero.

## Where and When to Submit the Report

The completed and signed original report shall be submitted within 45 days after the December 31st reporting date and, for significant branches, end-of-quarter reporting date. The report should be sent only to the Federal Reserve Bank in the district in which your main office is located. It is not necessary to send a courtesy copy to your primary federal banking regulator if you are a national bank, FDIC-insured state nonmember bank, or savings association. The Federal Reserve will make this information available to the other federal bank supervisory agencies.

Reporting branches that wish to submit the FFIEC 030 or the FFIEC 030S report electronically using the Federal Reserve's Reporting Central application should contact their Reporting and Reserves District Contact (<https://www.frbservices.org/contacts/index.jsp#RR>) for instructions. If the FFIEC 030 or FFIEC 030S report is filed electronically, the completed and signed original report need not be filed with the appropriate Federal Reserve District Bank. However, the parent U.S. institution must maintain the completed and signed original report in its files.

## December Only Reporting

For the December FFIEC 030 report, on page 1 enter "1" (annual) or "2" (quarterly) to indicate the appropriate filing criteria for the branch's(es') data.

## Completion of the Report Form on a Consolidated Basis

At the bank's option, branches in a single country may report year-end information on a consolidated basis. When this option is exercised, all branches, other than significant branches (as defined above), in the same country must be consolidated on a line-by-line basis on one report form.

The reporting branch should file the appropriate report form (FFIEC 030 or FFIEC 030S) based on the unconsolidated branch's asset size. Reporting branches do not need to consolidate exempt branches (branches with total assets less than \$50 million). On page 2 of the report form, provide the number of branches that are consolidated within the same country as the reporting branch (which is the nonsignificant branch with the most total assets) and the address of each consolidated branch on the lines provided. However, foreign branches that meet the threshold for reporting on a quarterly basis (that is, significant branches) must not be consolidated with any other branch.

## Intrabank Transactions

Intrabank transactions include transactions with other foreign branches of the reporting branch's bank, the head office and U.S. branches of the reporting branch's bank, and consolidated subsidiaries of the reporting branch's bank. Except as described in the following paragraph, all balances and positions due from and due to these entities (other than off-balance sheet items) should be reported as gross amounts in FFIEC 030 Schedule RAL, line items 8 and 9 (FFIEC 030S line item 1) and FFIEC 030 Schedule RAL, line items 16 and 17 (FFIEC 030S line item 3), as appropriate. Intrabank derivative and off-balance sheet transactions may be either excluded from or included in FFIEC 030 Schedule RAL, line items 20 through 25 (FFIEC 030S line items 4 and 5), but the reporting branch's treatment of these derivative and off-balance sheet transactions should be followed on a consistent basis.

For reporting branches that choose to consolidate other branches in a single country, the results of all intrabank transactions between offices *included* in the scope of the consolidated branch are to be eliminated

---

# General Instructions

in the consolidation and must be excluded from the reporting branch's FFIEC 030 or FFIEC 030S.

Intrabank transactions do not include transactions with the parent holding company of the reporting branch's bank and with other subsidiaries of the parent holding company of the reporting branch's bank (unless such subsidiaries are also consolidated subsidiaries of the bank). Transactions with the parent holding company and its other subsidiaries (including unconsolidated subsidiaries of the bank) are treated as transactions with third parties, and all balance sheet items resulting from these transactions should be included in FFIEC 030 Schedule RAL, line items 1 through 7 and 10 (FFIEC 030S line item 2) and FFIEC 030 Schedule RAL, line items 12 through 15 and 18, as appropriate. Derivatives and off-balance sheet items with these entities should be included in FFIEC 030 Schedule RAL, line items 20 through 25 (FFIEC 030S line items 4 and 5), as appropriate.

## Foreign Currency Translation

All amounts must be expressed in U.S. dollar equivalents, using exchange rates prevailing on the reporting date. Report all amounts in thousands of U.S. dollars.

## Negative Entries

Except as described below and in the Instructions to the Consolidated Report of Condition (FFIEC 031), all amounts should be reported as positive balances in thousands of U.S. dollars. When one branch of the bank creates an acceptance and the holder sells the acceptance to another branch of the same bank, the "creating" branch may not know that the acceptance has been purchased by another branch of the same bank. Therefore, to prevent duplication in the consoli-

dated bank acceptance totals, the purchasing branch should record the transaction by debiting "Own acceptances purchased" (FFIEC 030 Schedule RAL, line item 6(b), 6(c), or 6(d) depending on the account party; included in FFIEC 030S line item 2, "Assets") and crediting cash or the seller's account. It must also deduct the full amount of the acceptance from its own "Customers' liability for acceptances outstanding" (included in FFIEC 030 Schedule RAL, line item 10 and FFIEC 030S line item 2) and "Bank's liability on acceptances executed and outstanding" (included in FFIEC 030 Schedule RAL, line item 18) accounts. Amounts that must appear as negatives should be shown in parentheses.

## Signature and Attestation

The original report must be manually signed on page 1 by an authorized officer of the reporting parent U.S. institution who can attest that the information submitted, including any consolidated branches, has been prepared in conformance with the instructions issued by the Federal Financial Institutions Examination Council and are true and correct to the best of his or her knowledge and belief. The title of the signing officer and date of signature must also be provided.

## Amended Reports

If a report submitted by a branch is found to contain significant errors, as determined by the federal bank supervisory agencies, the submitting institution may be required to file an amended report. Respondents should refer to the general instructions in the Consolidated Report of Condition for further information on the filing requirements for amended reports.
